To The Honourable Allan Grossman,
Minister of Reform Institutions.

Sir:

The reports of the following for the year which ended March 31, 1964, are presented herewith for your consideration:

The Training Schools Advisory Board.

The Training Schools Statistics.

The report of the Training Schools Advisory Board is brief and concise, yet it not only gives an account of the activities of the Board for the year but also states some important facts and statistics. The report indicates that meetings were held on Thursday mornings of each week and visits were made to each of the Schools during the year. The sincere interest, and efforts which the members have devoted in discharging their duties, is a fine example of dedicated citizens of high calibre giving voluntarily of their time and talents in public service. Their opinions and suggestions are therefore worthy of serious consideration and study.

In 1962, the Training School facilities were greatly increased by the opening of the Ontario Training School for Girls, Lindsay, The Ontario Training School for Boys, Simcoe, Coldsprings Camp for Boys located in the Ganaraska Forest, as well as a large addition to St. John's Training School for Boys, Uxbridge. At that time all of our training schools were experiencing sustained periods of maximum enrolment but with the opening of these new facilities the pressures of overcrowding were tentatively relieved. However, the increase in new commitments is again resulting in some overcrowding situations, particularly in our Boys' Schools. In order to accommodate this ever-increasing enrolment the Department is already planning an expansion of facilities for the next fiscal year.

It is interesting to note that commitments and admissions to all Training Schools for the period 1955-1959 were 3,657—an average of 731 per year. During the period 1960-1964, the figure was 5,179 or an average of 1,035 per year. This is an increase of 304 per year or 41% over the first period.

The increase in commitments insofar as the Training Schools of this province are concerned shows little variation per 100,000 population over a 10-year period and we can only conclude that the rise in commitments is the natural outcome of the greatly increased population which in 1955 was 5,266,000 and in 1964 stands at 6,586,000—an increase of 25%. Over this same 10-year period the juvenile population of the province showed an increase of 88%.

According to The Training Schools Act, which governs the establishment and administration of all the Training Schools in Ontario, wardship may remain in effect until the ward reaches his or her eighteenth birthday. However, this is not intended to restrict the granting of placement. As soon as a child is ready to be returned to the community a recommendation for placement is made to the Advisory Board. Placement may be made to the ward's own home or a suitable foster home. The Board studies each case and makes its recommendation to you, as Minister of the Department, for final decision. While the Act provides for wardship to continue until the child reaches the age of eighteen, it does not necessarily follow that all wardships continue for the full period. Frequently wardship is terminated before the age limit is reached. This is often the case when a ward has demonstrated by satisfactory adjustment that he or she has responded to treatment and where it is felt termination would be in the best interests of the child's future. Termination is then authorized by you on the recommendation of the Advisory Board. The report of the Advisory Board shows an apparent satisfactory adjustment of a very considerable number on release of wardship. This is indicative of the measure of success of our total treatment programme.

The Training Schools have continued to expand their activities with concentrated emphasis on the successful adjustment and rehabilitation of the wards. The total number of wards demanding attention throughout the year has placed heavy demands on the staff. Their untiring efforts have been rewarded by the successful adjustment and future happiness of many young lives. Our future success will depend on the programmes of training and treatment offered in our schools coupled with the loyalty and devotion of a well-trained staff. With this in mind, concentration is being directed towards attracting more professionally trained personnel and at the same time emphasis is being placed on improving the qualifications of all staff. This is being accomplished through in-service training, as well as specially designed courses at the Staff School and McMaster University. It is worthy of note that our Schools are well thought of throughout Canada and we are frequently consulted by other jurisdictions regarding procedures and programmes.

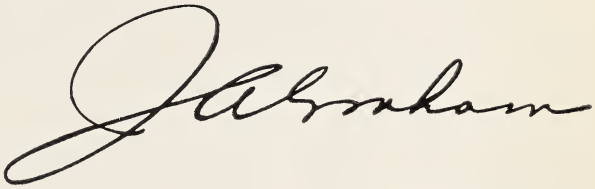
The work being done by the Rehabilitation Officers is very commendable and plays a most important and vital role in the total programme of the training schools. It is the duty of the Rehabilitation Officer to find suitable foster homes, and give guidance and counselling to both parents and foster parents. Home inspections must be carefully carried out and wards directed in their thinking and attitudes to a successful re-adjustment in the community.

The retirement on April 10th, 1963, of Reverend Martin W. Pinker, O.B.E., Chairman of the Training Schools Advisory Board, is noted. He was most resourceful in his dealings with problem children and the application of his

extensive experience and talents in understanding the youth of our day will be a great loss to the Board. Reverend Pinker served as full-time chairman of the Board from August 5th, 1958, until his retirement. However, his continued interest in the work of our Department is evident in his Chairmanship of the Ministers Advisory Council on the Treatment of the Offender, where his knowledge and experience prove most valuable.

May I take this opportunity of expressing our sincere appreciation and gratitude to the many interested citizens and organizations who have given generously of their time and talents in assisting us in this most important and rewarding work.

Yours sincerely,



Deputy Minister.

THE TRAINING SCHOOLS ADVISORY BOARD ANNUAL REPORT

To The Honourable Allan Grossman,
Minister of Reform Institutions.

Sir :

We have pleasure in presenting our Annual Report for the year ending March 31, 1964.

Meetings were held weekly to consider special cases, authority for Placements, Returns to Institutions, and Termination of Wardships. The file on each case is provided for the scrutiny of the members.

The very great increase in the juvenile population of the Province has correspondingly increased the commitments to the Training Schools, causing accommodation problems which they have endeavoured to meet by reducing the period of training. This procedure is not conducive to the successful reformation of many of these young people.

The statistical report which follows does exhibit the work of the Board and is self-explanatory.

Administration and academic building, O.T.S. Galt.

N.B. The reason why the figures in this table may sometimes be found to differ from those submitted by the Schools, is because the School figures refer to individual cases, whereas in this table, if action is taken by the Board concerning an individual case more than once during the period covered, it is shown more than once.

Enrolments

The number of wards in residence and on placement on March 31, 1964, was 3,234, which is an increase of 121 over the same date in 1963, and of 303 over the same date in 1962. It is apparent that practical plans must be implemented to meet the problems of growing institutions.

	Ontario Training School for Boys, Bowmanville	Ontario Training School for Boys, Cobourg	Ontario Training School for Boys, Simcoe	Ontario Training School for Boys, Guelph	Reception and Diagnostic Centre for Girls, Galt		Ontario Training School for Girls, Galt	Ontario Training School for Girls, Lindsay	Ontario Training School for Girls, Port Bolster	St. Mary's Training School for Girls, Toronto	St. John's Training School for Boys, Uxbridge	St. Joseph's Training School for Boys, Alfred	Totals

Totals	714	558	181	82	6	24	272	139	41	294	541	382	3,234

Certain facts should be considered:

(*a*) If the training school programme is to produce the best results in developing a sense of responsibility and good citizenship, then the Schools should be built in locations where families can visit regularly at not too great expense. Family relationships are most important.

(*b*) Different Schools with different programmes for Juniors (13 and under) and for Seniors should be planned.

(*c*) The increase in the number of commitments from Northern Ontario seems to warrant consideration for a Boys' School in that area.

(*d*) It is essential that the classrooms in all Schools should be well equipped and staffed with very capable teachers. This is necessary in order that the child's educational programme will not be interrupted due to the transition from the community school to the Training School and correspondingly so from the Training School back to the community.

A Yearly Comparison of Commitments and Admissions

Year Ended March 31st	Committed	Admitted	Total
1957	757	41	798
1958	838	47	885
1959	790	48	838
1960	820	59	879
1961	897	71	968
1962	1,019	49	1,068
1963	1,038	58	1,096
1964	1,126	42	1,168

Judges seldom send a girl or boy to a training school on a first appearance in Court. Court personnel usually make use of every means possible through the influence of home, school, Church and social agencies, to change the attitude and actions of the youth brought before the Court. Consequently only the most serious cases are committed to the care of the Schools. The Department and the Schools must accept these. The Schools have a clear and definite responsibility to provide the best possible educational and training programme: academic, recreational, religious and vocational. However, increasing enrolments and subsequent overcrowding in some Schools and a necessarily reduced training period will adversely affect the value of the educational efforts of the Schools. No doubt the Department has planned to meet the problem. The comments of the Advisory Board on this matter in the 1962 and 1963 reports need not be reiterated.

Placements

The Review Committee in each School assesses the progress of its wards every three months. When it is evident that the boy or girl has improved sufficiently to merit placement in the community, either at home or in a foster home, a suitable home is sought and investigated, and a recommendation is made to the Advisory Board and to the Minister.

For the year ending March 31, 1964, there were 2,177 such placements recommended and authorized. The placement officers of the Regional Rehabilitation Services then have the responsibility of giving regular and friendly supervision. This is a very important service which these young people need at this critical period in their lives. It has been well done and well directed.

Returns to Training Schools

The accompanying analysis of the reasons for the return of 544 wards is self-explanatory.

When a boy or girl is first committed to a School, the motivation for trying to co-operate with supervisors and teachers is manifestly good in practically all cases. The majority settle down after classification and assessment and enter freely into the methodical programme of training school life, both inside and outside the classroom.

Usually the first placement is anticipated with pleasure and is a happy one, but on meeting the problems of modern life, the motive for good is lost when things don't turn out as they expected. In some cases a don't care attitude is the result and delinquency follows. This sometimes occurs in spite of the counselling and efforts of the placement officers, and a return to the School for further training seems to be the only solution. Usually no home or foster home will keep these wards.

It is noted that many of the wards returned from placement to the schools for further training have appeared again in either the Juvenile or Adult Courts and have become cynical and quite sophisticated. As a result they are a disrupting factor in the training programme of the school by their example of poor behaviour and conduct. It is the considered opinion of the Board that some thought should be given by the Department for the establishment of a separate programme for the retraining of wards returned from placement and in a setting apart from the other schools.

The increasing rise in the number of children committed to the care of the Training Schools for treatment and social re-education presents many problems. The overcrowding of accommodation places a heavy burden on existing facilities and restricts to some degree the effectiveness of the training programme. The practice of shortening the period of training to find room for new commitments and returning the student back to the community before he or she is completely adjusted defeats the purpose of the Training School system. Lack of accommodation is never a good reason for ending a period of training for in the final analysis it may prove costly to the community in the years ahead.

Termination of Wardship

The following table shows that 995 cases for termination of wardship were considered and 952 granted. It is worthy of note that in our opinion 620 of these, 76 per cent, made a satisfactory adjustment in the community.

Number of Individual Cases Considered		995
Less: Terminated by death	7	
" " Court of Appeal or Age	2	
Applications refused or deferred	34	43
Total number of wardships terminated on the recommendation of the Advisory Board		952

Reasons for Termination

(*a*) Having reached the legal age of 18 years:		
*Adjustment considered satisfactory	142	
*Adjustment considered doubtful	35	
		177
(*b*) *Considered to have made satisfactory adjustment before reaching age of 18 years		453

(*c*) Having married:		
Adjustment considered satisfactory	20	
Adjustment considered doubtful	3	
		23
(*d*) Having enlisted in the Forces		5
(*e*) Having moved out of the Province and/or whereabouts unknown over long period		86
(*f*) Having been transferred to Ontario Hospital as being mentally defective		33
(*g*) Having wardship transferred back to Children's Aid Society		17
(*h*) Having been sentenced in Adult Court		158
Total number of wardships terminated during the year ending March 31st, 1964		952
Less number:		
(*a*) Transferred to an Ontario Hospital	33	
(*b*) Moved out of Province and/or whereabouts unknown	88	
(*c*) Wardship transferred back to Children's Aid Society	17	
		138
Net Total for the purpose of this assessment		814

Assessment

(1) *Considered to have made a satisfactory adjustment:		
(*a*) Having reached the legal age of 18 years	142	
(*b*) Before reaching the legal age of 18 years	453	
(*c*) In the Forces	5	
(*d*) Having married satisfactorily	20 = 620 or 76%	
(2) *Not adjusted or adjustment considered doubtful	= 194 or 24%	
	814	

*By Training School and Placement Officers.

Concluding Remarks

It is the privilege of the members of the Board to visit all Schools, to meet the Superintendents and staff members, and to have access to the files of all the wards committed to their care. In our opinion it is only right and just that commendation be extended to Superintendents and Teachers, to Supervisors and Rehabilitation Officers, for their unceasing, conscientious efforts to rehabilitate wayward youth, and in providing the best possible conditions for learning and development, in spite of many frustrations.

It is with regret that we record the retirement of Reverend Martin W. Pinker, O.B.E., Chairman of the Board. His understanding of youthful people who have problems was the result of his extensive experience. In a capable and efficient manner he guided the deliberations of the Board.

Appreciation and thanks are expressed to the officials of the Department and of the Schools for the admirable co-operation extended at all times.

We remain,

Sincerely,

John M. Bennett, Ph.D., *Acting Chairman.*

C. H. Lewis, M.D., C.M.

Wallace M. Murdoch,

Ethel Sanderson.

It is with a deep sense of regret that I report that Mr. Wallace M. Murdoch, appointed a member of the Training Schools Advisory Board by Order-in-Council, September 16, 1948, passed away after a lengthy illness on November 7, 1964. As a business man his wise counsel was of invaluable assistance to the Advisory Board in making decisions regarding the welfare of the wards under the care of the Department. Before retirement Mr. Murdoch was President of the Ford Tractor and Equipment Sales Company of Canada Limited.
